

Environmental & Sustainability Policy Statement

Sripath® is dedicated to reducing its environmental impact by incorporating sustainability principles during product design and development, production manufacturing, and ultimately helping customers pursue their own sustainability goals.

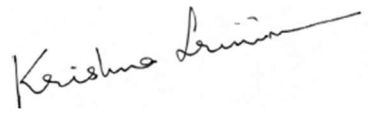

We committed to incorporating environmental stewardship and sustainability focus principles into our day-to-day operations.

- Sustainable Product Design and Development: We are committed to designing products that have a minimal impact on the environment and that help our customers reduce their own carbon footprint.
- Responsible Manufacturing Operations: We are committed to continually improving our manufacturing processes to minimize waste, emissions, and negative environmental impacts. When possible, we also minimize emissions and use of fossil fuels during shipment of our products.

The following principles guide our actions:

- Use of Sustainable Materials: We shall utilize the most environmentally friendly and renewable raw materials in the manufacture of our products to support a circular economy. We shall use bio-based materials when possible.
- Reduced Carbon Emissions: We shall reduce the impact of manufacturing processes on the environment by minimizing use of fossil fuel and reducing waste generation through efficient process design and logistics. We shall offer products that help our customers extend the life of roadways and roofs.
- Eco-Conscious Product Innovation: We shall develop innovative additives and technologies engineered to improve performance, durability, longevity, and sustainability in asphalt systems where possible.
- Customer Partnership and Communication: We shall communicate effectively with our customers to ensure they understand how best to apply our products to minimize environmental impact and progress toward their own net zero carbon emission goals.
- Easy-to-Access Environmental Product Declarations (EPD): We shall make our EPDs easily accessible on the Sripath website and foster a high level of transparency to enable our customers, partners, and stakeholders to make informed, sustainability-driven decisions.

Sripath's management is committed to upholding the actions and goals outlined in this Environmental & Sustainability Policy.
