

Paving Solutions

Innovative and Cost-Effective
Engineered Materials for
Paving Roadways

Engineer Balanced Mixes. Cost-Saving Solutions. Environmentally Sustainable.

Sripath Technologies® engineers additives that provide easy, cost-effective solutions to universal paving challenges. Sripath offers a wide range of products that improve performance, increase the use of recycled materials, lower costs, and ease the manufacturing and application processes. Through extensive R&D, testing, and with a proven track record on roads across the globe, Make Asphalt Better® with Sripath's innovative additive solutions.

Paving Solutions

ReLIXER®

Rejuvenator / Recycling Agent

- *Rejuvenate aged bitumen in reclaimed asphalt (RAP/RAS)*
- *Restore functional performance of aged binder*
- *Use up to 100% RAP in mixes*
- *Reduce virgin asphalt needs*
- *Keep RAP out of landfills*
- *Compatible with bitumens world-wide*
- *No VOC - supports worker safety*

SriCote®

Anti-Stripping Agent

- *Promote aggregate bonding*
- *Highly effective and efficient anti-stripping agent*
- *Amine-free*
- *Exceptional dosage efficiency*
- *Improve Tensile Strength Ratio*
- *Does not affect Performance Grade properties*
- *Compatible with all bitumens and a wide range of PMAs*

Improve High Temperature Performance with...

PGXpand[®]

Bitumen Friendly Polymer

- *Dramatic improvement of high temperature properties and Softening Point*
- *Highly effective at low dosages*
- *Exceptional rutting resistance*
- *Lower viscosity*
- *Better workability*
- *Easy low shear incorporation*
- *Maintain low temperature properties*

Make Asphalt Better

Improve Low Temperature Performance with...

ReNUBIT[®]

Bitumen Softener

- *Petrochemical oil blend*
- *Improve crumb rubber and polymer compatibility*
- *Improve low temperature properties*
- *Highly compatible with all bitumens world-wide*
- *Stable at storage, use and mix temperatures*
- *Effective "cutter" for viscosity*

NUMIXER[®]

Bitumen Softener

- *All natural, "green", bio-oil*
- *Improve low Performance Grade and penetration properties*
- *Improve polymer and crumb rubber compatibility*
- *Lower viscosity of formulations*
- *Excellent aging properties*
- *Stable at storage, use and mix temperatures*
