

ReLIXER®

The Market Leader in RAP
Rejuvenation & Recycling Technology

Better Asphalt. Better Environment.

Sustainable industry practices are the solution, not the exception.

Using bio-based oils, ReLIXER® reduces waste and brings higher levels of recycled materials back into the supply chain, promoting a Circular Economy and help towards meeting Net Zero goals.

*Reuse and Recycle RAP.
Environmentally Friendly.
Cost-Effective.*

Tested. Proven. Trusted.

ReLIXER is a specially formulated elixir of bio-based oils that rejuvenates the aged bitumen when recycling and reusing high levels of Reclaimed Asphalt Pavement (RAP) and/or Reclaimed Asphalt Shingles (RAS) in mixes.

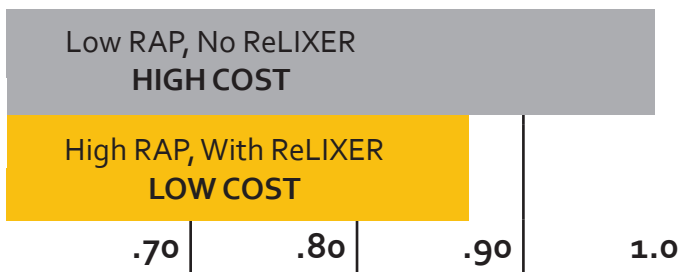

Tested and proven, Sripath's ReLIXER is the leading asphalt rejuvenator or recycling agent on the market – trusted by customers world-wide, and backed by peerless technical support from our in-country agent network.

The result of intensive research and development, with proven reliability over thousands of lane miles since 2015, ReLIXER restores flexibility and damage tolerance, reduces mix stiffness, improves compaction and workability, and delivers high-performance and durable roadways.

Sustainable solutions are now the most cost-effective. ReLIXER makes it possible.

Lower the overall mix cost by using ReLIXER to incorporate higher levels of RAP and reduce the need for virgin binder and fresh aggregates.

ReLIXER® Technical Data

Property	Typical Value	
Moisture, Vacuum Oven	2%	
Flash Point	> 204°C	> 400°F
Density	0.9 kg/liter	7.5 lb/gal
Viscosity @ 24 °C (75 °F)	0.05 Pa.s	50 cp
Insolubles	1%	
Iodine Value	115	

All values representative only.

PHYSICAL CHARACTERISTICS: ReLIXER is blend of bio-based oils derived from harvested crop. The viscosity and color are influenced by a multitude of natural factors and can vary over time. However, the product is formulated to always perform as intended and to consistently deliver desired roadway performance.

PACKAGING: Pumpable liquid in bulk truck, railcar or iso-tank. Drums/totes are available by special request.
