

PRESS RELEASE:  
FOR IMMEDIATE RELEASE

## **Bitpath Pvt. Ltd. Establishes Amaz Chemicals LLP as Distributor of Sripath Products for India**

**MUMBAI, India** – October 19, 2021 – Bitpath Private Limited announced that, effective October 11, 2021, Amaz Chemicals LLP would act a distributor of Sripath Technologies’ Products within the geographic regions of India, Bangladesh, Bhutan, Nepal and Sri Lanka. Bitpath shall continue to directly sell Sripath Products to select key customers in India.

Bitpath, headquartered in Mumbai, is an affiliate of Sripath Technologies, LLC, New Jersey, USA. Amaz has a strong sales and marketing team serving the bitumen industry all across India.

Since 2006, Sripath Technologies® has supplied innovative bitumen additives for paving and roofing applications worldwide. Sachin Raje, General Manager of Bitpath, stated, “Our portfolio of rejuvenator, polymers, compatibilizers, and anti-strip agents are routinely used on millions of kilometers of roads.”

The Management Team at Amaz is really excited about this opportunity, “We are proud to be the designated distributor of Sripath Products in India. Our sales and marketing team will work closely with the Sripath and Bitpath team to provide outstanding customer service and excellent technical support to all our customers.”

“At our core, we are problem-solvers, focused on innovation”, explained Krishna Srinivasan, President of Sripath Technologies. “Our products are tested, proven, and trusted by customers all over the globe. India is a very important and strategic market for us.”

“With Amaz distributing our products in India, we will have the ability to deliver our products to large, medium and small businesses at the national, state and local level. We are really excited to collaborate with Amaz to better serve our customers in India,” added Deepak Madan, Chief Marketing and Business Development Officer at Sripath Technologies.

Raje commented, “Sripath’s innovative portfolio of products are critical for creating the future network of roads and highways in India.

- ReLIXER®: the leading RAP rejuvenator;
- PGXpand®: a unique polymer additive;
- NuMIXER®: a bio-based oil blend - compatibilizer and viscosity modifier
- ReNUBIT®: a petrochemical oil blend - compatibilizer and viscosity modifier
- SriCote®: an amine-free anti-stripping agent.”
